

Designed for summer biathlon training and similar events for children and young people, indoor and outdoor. Electronic rifle E-Gun 203 is equipped with sports junior biathlon stock and dioptre.

Effective training instrument for shooting conditioning, in association with Buddy detector, it gives instructors an immediate objective estimation of shooter's performance while aiming and triggering the firearm.

It is possible to use also other sights types (scope, open sights). Single-action version, it is not possible to set number of electronic shots.
